Re: Florida – 100% Workforce Pause Restriction *Exemption*

To Whom It May Concern:

A Better Healthcare (“Premier”) provides home health care services to the elderly, ill, disabled and other vulnerable individuals. As such, Premier is defined as an “essential business” by the State of Florida and is exempt from travel and work restrictions. Additionally, Premier employs over 250 essential health care employees in the region.

The employee presenting this letter is an administrative employee of A Better Healthcare and is responsible for payroll, PPE distribution and accounting functions, which are also deemed as “essential services for health care”, to assure payment of these workers and as such is permitted to travel to perform such duties under the Governor’s Executive Order.
